# Olfactory Pyramid

The scent pyramid of Cabo das Tormentas Amenities is a combination of aromas that evoke the strength and serenity of the sea.

At the base, seaweed and musk provide an earthy, marine foundation, while cedar and seawater add a woody, salty touch.

Sandalwood and geranium bring depth and balance with a woody, floral scent. Lavender, juniper berries and rosemary add a herbaceous and aromatic layer, finished with a refreshing touch of mint.

This harmonious composition transforms Cape Storm into a unique olfactory experience, transporting the mind to the wild nature of the ocean.
